

Support & Encouragement

well its hard to know when to start this program. Has provided me so much... its given me ~~at~~ the chance to finally put my life together if i would not of made the program I would have ended up going back to quebec doing the same things Dealing Drugs, Stealing witch would of had me ~~end~~ end up always getting arrested and maybe ed up in jail... so I can truly say thank you, thank you for Helping work my life out thank you for ~~for~~ basicly saving my life.

I learned that going legit is better off than quick easy money which would and did land me up in jail. I feel better about my ~~self~~ self every day from when I wake up till I go to bed, people now look at me as a success, instead of a trouble making young adult that really was not going anywhere. this
