

NYSA offers free Tourism & Retail career workshops

Unemployed youth invited to take part in workshops aimed at careers and jobs in Science & Technology

The Youth Employment Centre is facilitating workshops on careers in Tourism, Hospitality and Retail, July 13, 14 and 15 2010 from 9 am to 4 p.m. at Nanaimo Youth Services Association.

This exciting workshop series is open to all between the ages of 15-30 who are unemployed and not a full time student.

Whether you are trying to select a career path, looking for a career change, or wanting to get involved in the Tourism, Hospitality and Retail fields these three days will be of great interest.

Youth participants will get a variety of information, including a general introduction to several areas within Tourism, Hospitality and Retail. Scheduled speakers and tours will be announced soon. Past presenters and tours have included Wild Play Elements Park, scuba diving instructors, outdoor guides, Winners, Avalon Cinemas, and the Tourism and Recreation departments at Vancouver Island University.

Participants will meet and interact with a variety of local Tourism, Hospitality and Retail experts to find out about the benefits of working in those industries, learn about training opportunities, and more. Lunch and transportation to all tours is provided.

If you are looking for an opportunity to network with those already established in this industry or to learn more about the field, please call the Youth Employment Centre at 754-8101 to find out more, or visit them at 290 Bastion Street. Also ask about the Careers in the Trades workshops taking place August 10, 11 and 12.
